FUDA EMPIRICAL EVALUATION
Development Experience Questionnaire (Used Documentation)

NOTE: This is a fillable PDF file. If you are not using a PDF writer, please make sure to print this file to a PS or PDF file to not lose the information.

Name: S11 Date: 29/10/2010

Concept: ☐ JFace – Context Menu ☑ JFace – Content Assist

☐ Eclipse – Navigate ☐ Eclipse – Table Viewer

Q.1: Were you able to implement the concept successfully? ☑ Yes ☐ No

Q.2: How much time did you spend on the concept's implementation? 31

Q.3: If not successful to implement the concept, what was the main reason in your opinion?

- ☐ Lack of experience.
- ☐ Not useful documentation.
- ☐ Not useful sample applications.
- ☐ Complexity of the concept.
- ☐ Other. Please specify: _____

Q.4: Did you refer to the example applications' source code to implement the concept?

☐ No. None of them. ☐ Yes. One of them. Please specify: _____ ☑ Yes. Both of them.

Q.4.1: If yes, for what program statements and what kind of information?

I was copying a lot of code as I didn't know what are the exact steps I have to do to complete the task.

Q.5: How many documentations did you use in this experiment?

☐ None. ☐ Only one. ☑ Two.
Please specify: _____

Q.6: For each documentation, please specify which parts of the documentation did you read?

Doc1: ☐ None ☐ Only Relevant Parts ☐ A Big Portion ☑ All of that

Doc2: ☐ None ☐ Only Relevant Parts ☐ A Big Portion ☑ All of that

Q.7: Were you able to find all the required information for implementing the concept in the provided documentation? ☐ Yes ☑ No

Q.7.1: If not, what kinds of information were missing in the provided documentation?

Specific one. The one the connects the progamming steps (lines of code).

Q.8: Were you able to easily access the desired information in the provided documentation? ☐ Yes ☑ No

Q.8.1: If not, what were the difficulties?

Documentation is often as now general even though it tells you a lot about how to. Nevertheless, there are many engineering steps which are usually out of document content. If you are not familiar with the framework enough, the documentation might be issuficient when trying to write a conrete code that should actually run.

Q.9: In your opinion, was the documentation concise enough? ☐ Yes ☑ No

Q.10: Overall, in the range of 1-5, how do you rank the provided documentation in terms of usefulness to implement the concept?

☐ 1 = Not Useful ☐ 2 ☑ 3 ☐ 4 ☐ 5 = Excellent

Q.11: Do you have any additional comments on this experiment?
