How would you rate your experience with creating the object diagram?

- Very Difficult
- Difficult
- Moderate
- Easy
- Very Easy

How would you rate your experience with answering the domain questions in Task 2?

- Very Difficult
- Difficult
- Moderate
- Easy
- Very Easy

Do you think it would have been hard to understand the class diagram without examples?

- Yes
- No

Were there specific parts of the class diagram that were hard to understand/comprehend without examples?

Were there examples that were of particular help for you?

Did it help seeing a variety of examples (valid and invalid)?

In Example 5, did you need to have all of the instances to understand the point it was trying to make? Or was it enough to see a partial example?

Overall rating of the experiment?

How would you rate the confidence level in your answers for:

Object Diagram: 1(Unsure) 2(Not Sure Enough) 3(Neutral) 4(Sure) 5(Very Sure)

Task 2 Solutions: 1(Unsure) 2(Not Sure Enough) 3 (Neutral) 4(Sure) 5(Very Sure)

(1 being the lowest, 5 being highest)
