

# FUDA EMPIRICAL EVALUATION

## Development Experience Questionnaire (Used Templates)

**NOTE: This is a fillable PDF file. If you are not using a PDF writer, please make sure to print this file to a PS or PDF file to not lose the information.**

Name: S14 Date: 28 Oct 2010

Concept:  JFace – Context Menu  JFace – Content Assist  
 Eclipse – Navigate  Eclipse – Table Viewer

**Q.1:** Were you able to implement the concept successfully?  Yes  No

**Q.2:** How much time did you spend on the concept's implementation? 30 min

**Q.3:** If not successful to implement the concept, what was the main reason in your opinion?

Lack of experience.

Not a useful template.

Not useful sample applications.

Complexity of the concept.

Other. Please specify: \_\_\_\_\_

**Q.4:** Did you refer to the example applications' source code to implement the concept?

No. None of them.

Yes. One of them.

Yes. Both of them.

Please specify: KTree

**Q.4.1:** If yes, for what program statements and what kind of information?

To have an example of usage of the drilldownadapter

**Q.5:** Overall, did you find the templates useful? If yes, in what way? If not, why?

The template reduces the amount of information and methods you have to dig into in order to achieve your implementation.

**Q.6:** Do you think that the format and structure of the templates are OK? If not, what are the main issues?

I would add a commented line to each method exposed, to give a brief description of what the method does. Some of them are not easily recognizable by just reading their names.

**Q.7:** What kinds of information do you think are missing in the templates?

See Q.6: a brief description of each method and parameters would be helpful (and avoid users to dig into the code or javadoc to complete missing information).

**Q.8:** Overall, in the range of 1-5, how do you rank the provided template in terms of usefulness to implement the concept?

1 = Not  
Useful

2

3

4

5 =  
Excellent

**Q.9:** Do you have any additional comments on this experiment?

Additional Space:
