

FUDA EMPIRICAL EVALUATION

Development Experience Questionnaire (Used Templates)

NOTE: This is a fillable PDF file. If you are not using a PDF writer, please make sure to print this file to a PS or PDF file to not lose the information.

Name: S20 Date: 29.10.2010

Concept: JFace – Context Menu JFace – Content Assist
 Eclipse – Navigate Eclipse – Table Viewer

Q.1: Were you able to implement the concept successfully? Yes No

Q.2: How much time did you spend on the concept's implementation? 1h 10min

Q.3: If not successful to implement the concept, what was the main reason in your opinion?

Lack of experience.

Not a useful template.

Not useful sample applications.

Complexity of the concept.

Other. Please specify: _____

Q.4: Did you refer to the example applications' source code to implement the concept?

No. None of them.

Yes. One of them.

Yes. Both of them.

Please specify: Editor List

Q.4.1: If yes, for what program statements and what kind of information?

more or less for everything. especially looked for the type of variables that we need to use which in the template are not specified.

Q.5: Overall, did you find the templates useful? If yes, in what way? If not, why?

I generally prefer my own implementation. they give an idea of what part the program need but still some things are too generally explained to write directly code from the template.

Q.6: Do you think that the format and structure of the templates are OK? If not, what are the main issues?

The SomeClass is not linked to any other part of the code.

The createPartControl method should be first before the setFocus, and there should be some relation between the tableviewer initialization in the createPartControl and the use in setFocus (to make clear they are the same).

Q.7: What kinds of information do you think are missing in the templates?

Q.8: Overall, in the range of 1-5, how do you rank the provided template in terms of usefulness to implement the concept?

1 = Not Useful 2 3 4 5 = Excellent

Q.9: Do you have any additional comments on this experiment?

Additional Space:
