

FUDA EMPIRICAL EVALUATION

Development Experience Questionnaire (Used Templates)

NOTE: This is a fillable PDF file. If you are not using a PDF writer, please make sure to print this file to a PS or PDF file to not lose the information.

Name: S24 Date: 2010-11-3

Concept: JFace – Context Menu JFace – Content Assist
 Eclipse – Navigate Eclipse – Table Viewer

Q.1: Were you able to implement the concept successfully? Yes No

Q.2: How much time did you spend on the concept's implementation? 20 min

Q.3: If not successful to implement the concept, what was the main reason in your opinion?

- Lack of experience.
- Not a useful template.
- Not useful sample applications.
- Complexity of the concept.
- Other. Please specify: _____

Q.4: Did you refer to the example applications' source code to implement the concept?

No. None of them. Yes. One of them. Yes. Both of them.
Please specify: _____

Q.4.1: If yes, for what program statements and what kind of information?

1- In order to add actions to the context menu.

2- To know where in the class to add the context menu.

Also, for importing required classes which are not indicated in the template.

Q.5: Overall, did you find the templates useful? If yes, in what way? If not, why?

Yes.

It narrows down the search for a required piece of code (adding a context menu in this case) within a large sample code.

Q.6: Do you think that the format and structure of the templates are OK? If not, what are the main issues?

the template is a short version of the sample code which merely reduces the effort needed to search for a particular use case. However, it could be more useful while organized in a way that each particular use case (for instance adding a context menu) is distinguishable.

Q.7: What kinds of information do you think are missing in the templates?

Q.8: Overall, in the range of 1-5, how do you rank the provided template in terms of usefulness to implement the concept?

1 = Not
Useful

2

3

4

5 =
Excellent

Q.9: Do you have any additional comments on this experiment?

Additional Space:
